TFP NUTRITION
NACOGDOCHES, TEXAS

CALORIE CONTENT (CALCULATED):

Metabolizable Energy (ME) - 3,800
Kcal/kg (431 Kcal/cup)

HI ENERGY FORMULA

Fortified nutrition for the sporting dog.

FEATURES

- * 1724 Kcal/lb
- * 24% Protein/20% Fat
- * Meat-Based Protein
- * No Soy
- * Fortified with Omega-6 and Omega-3 Fatty Acids
- * Contains Vitamin E--a Natural Preservative
- * With Glucosamine and Chondroitin Sulfate

BENEFITS

- * Highly Digestible--Produces Smaller, Firmer Stools
- * Produces a Healthy, Shiny Hair Coat
- * Higher Energy--Working Dogs Remain in Top Condition
- * Nutritionally Complete--No Need to Add Supplements
- * Supports Healthy Joint Function

Star Pro® High Energy Formula is formulated to meet the nutritional levels established by the AAFCO Dog Food Nutrient Profiles for all life stages, including growth of large size dogs (70 lb. or more as an adult).

GUARANTEED ANALYSIS

Crude Protein, minimum	24.00%
Crude Fat, minimum	20.00%
Crude Fiber, maximum	3.50%
Moisture, maximum	10.00%
Omega-6 Fatty Acids, minimum	3.25%*
Omega-3 Fatty Acids, minimum	0.50%*
Glucosamine, minimum	350 mg/kg*
Chondroitin Sulfate, minimum	100 mg/kg*

*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profile.

FEEDING SUGGESTIONS

Adult Dogs: The amount of food required each day will vary by breed, activity level, temperament, and climate, and should be adjusted accordingly using the chart below as a guide. In most cases, once-a-day feeding is sufficient. If your dog prefers twice-a-day feeding, feed 1/2 of the daily amount in the morning and the other 1/2 in the afternoon. If preferred, one part warm water can be added to three parts Star Pro® immediately before serving.

WEIGHT OF DOG	DAILY AMOUNT*
Up to 12 lb	Up to 1/2 cup
12 - 25 lb	1/2 - 1 1/4 cups
25 - 50 lb	1 1/4 - 2 1/4 cups
50 - 75 lb	2 1/4 - 3 1/4 cups
75 - 100 lb	3 1/4 - 4 cups
Over 100 lb, add 1 cup for each 25 lb of weight.	

*One standard 8-oz measuring cup holds approx. 4 oz of food.

Puppies: Start puppies on moistened Star Pro® as soon as they begin to nibble on solid food (usually 3 to 5 weeks of age). While they continue nursing, keep moistened Star Pro® available at all times until fully weaned at 6 to 8 weeks of age. After weaning, Star Pro® may be fed moist or dry. Feed puppies up to 6 months of age all of the Star Pro® they can consume. If fed dry, Star Pro® may be kept before puppies at all times.

Gestation and Lactation: Consumption will vary; therefore, feed the amount required to maintain good body condition. Food may need to be available at all times.

Water: Provide a source of fresh, clean water at all times.

CAUTION: Changes in pet food should be made gradually. Pet food should be stored in a well-ventilated, dry area protected from rodents and insects. Pet food is perishable. Do not feed moldy or insect-infested pet food to animals as it may cause illness or death.
